## Details

### Description

The K 7.350 is a high-performance machine offering practical features and ease of use, which include an air-cooled induction motor, suitable for removing stubborn dirt on all surfaces. Extra large wheels, designed for easy transport and regular intensive use. Features include Quick Connect hose, on-board accessory storage, variable cleaning regulator and innovative Plug ’n’ Clean system for quick and easy detergent changeovers. The maintenance-free, three-piston axial-flow pump is energy efficient. High-quality brass cylinder head for a long service life. An impact-resistant, recyclable plastic casing prevents dirt particles from damaging the motor and pump. A safety valve prevents pressure overload. A pressure switch control switches the motor on and off when the trigger gun is pressed and released. A large on/off switch and an ergonomically designed trigger gun are further features.

### Application

Satisfies the most extreme demands and is suitable for nearly any cleaning task und most frequent use.

### Features & Benefits

Totally enclosed by high-impact plastic cover Protection from dirt and damage, free of corrosion, impact resistant, recyclable Air-cooled induction motor Powerful, tried and tested thousands of times Three piston pump (axial) Matured pump technology, optimum efficiency, maintenance-free Brass cylinder head Highest life expectancy and best resistance against corrosion. Safety valve Protects the unit from pressure exceeding Motor-Stop Machine stops, when gun is closed, relieves high pressure system and motor Large on/off-switch Easy to handle High-pressure hose with protective rubber sleeve Ergonomic gun design Enhance operator comfort, fatigue-free working Mobil function Easy transportation and maximum mobility Quick Connect at both ends of the high-pressure hose for a quick and comfortable attachment and removal of the high pressure hose Plug 'n' Clean System For a quick and comfortable change between different detergents within a few seconds; always in combination with a detergent regulation for an individual mixture of detergent and water Accessory storage Storage of accessories at the unit – no need to search for attachments
